GAME OVERVIEW: FRUIT PARTY™

Game Description (for Players)

Enjoy a fruit cocktail in Fruit Party, the 7×7, cluster pays videoslott. All symbols can carry a win multiplier for bigger wins. In the Free Spins, more multipliers appear for boost to the potential

Game Information (for Operators)

Fruit Party is a fun, high volatility videoslott suited for a wide audience. The main markets for the game are Eastern and Western Europe, keeping in sight the Scandinavian market in particular, as well as the emerging gaming markets in the area.

The game plays fast and in a dynamic fashion, with constant tumbles in the base game and high multipliers in the Free Spins round. The symbol cluster style of pay takes is apart from classic slots and sends it in the realm of mobile videogames. Thus, it is created to appeal to non-traditional slot players, part of the 25-45 age group, including female players. The volatility of the game lends itself to success on casino sites, but it is a very good addition for Bingo, Lotto and social style brands, where fun players represent the majority,

The best way to promote the game is through tournaments and prize drop via the Pragmatic Play Enhance™ tools, using the multipliers in the Free Spins round. This provides a competitive environment between players and the prize drops add a new layer of big wins to the repetitive flow.

The game is also great for acquisition and the “Buy Free Spins” feature, where available, helps tremendously with player retention, as it allows them to skip the base game and enjoy the exciting Free Spins round.
