Game Description (for Players)

Get ready for another encounter with Zeus in Gates of Olympus 1000.

Set upon a 6×5 grid with the Greek god adjacent to the reels, players must match at least eight symbols – including crowns, goblets and gems – on any spin to land a win. Symbols pay anywhere on the screen, and a tumble feature sees winning combinations removed from play, being replaced by new icons which fall from the top of the gameboard.

Multiplier symbols are present on all reels and can hit randomly during both spins and tumbles. Whenever one of these symbols lands, it takes a random multiplier value from 2x to 1,000x, with these values combined at the end of a tumble sequence and applied to the player's win.

What to expect:

- Landing four or more Scatters during the base game will trigger the free spins bonus round, starting with 15 free games
- Whenever a multiplier symbol hits during the bonus round, the value gets added to the round's total multiplier, which is then applied to any win whenever a new symbol hits
- Whenever three or more Scatters land during the bonus round, an additional five free games are awarded.

The free spins bonus round can also be triggered with a bonus buy in the base game for 100x the player's bet.

TUMBLE FEATURE

The TUMBLE FEATURE means that after every spin, winning combinations are paid and all winning symbols disappear. The remaining symbols fall to the bottom of the screen and the empty positions are replaced with symbols coming from above.

Tumbling will continue until no more winning combinations appear as a result of a tumble. There's no limit to the number of possible tumbles.

All wins are added to the player's balance after all of the tumbles resulted from a base spin have been played.

These are the multiplier symbols. They are present on all reels and can hit randomly during spins and tumbles in both base game and FREE SPINS.

Whenever a MULTIPLIER symbol hits, it takes a random multiplier value from 2x to 1000x. Possible values are: 2x, 3x, 4x, 5x, 6x, 8x, 10x, 12x, 15x, 20x, 25x, 50x, 100x, 250x, 500x or 1000x. When the tumbling sequence ends, the values of all MULTIPLIER symbols on the screen are added together and the total win of the sequence is multiplied by the final value.

FREE SPINS RULES

The FREE SPINS FEATURE is awarded when 4 or more SCATTER symbols hit anywhere on the screen.

The round starts with 15 free spins.

During the FREE SPINS round, whenever a MULTIPLIER symbol hits and the spin results in a win, the MULTIPLIER value gets added to the total multiplier. For the whole duration of the round, whenever any new MULTIPLIER symbol hits and results in a win the total multiplier value is also used to multiply the win.

Whenever 3 or more SCATTER symbols hit during the FREE SPINS ROUND, 5 additional free spins are awarded.

Special reels are in play during the FREE SPINS ROUND.

ANTE BET

The player has the option to select the bet multiplier. Depending on the selected bet, the game behaves differently.

The possible values are:

Bet multiplier 25x - the chance to win free spins naturally is doubled. More SCATTER symbols are present on the reels. The FREE SPINS PURCHASE FEATURE is disabled.

Bet multiplier 20x - gives the ability to purchase a FREE SPINS ROUND by paying a value equal to 100x total bet.

BUY FREE SPINS

The FREE SPINS ROUND can be instantly triggered from the base game by buying it for 100x current total bet.

When the 25x ante bet feature is enabled, the BUY FREE SPINS feature is disabled.

When buying the FREE SPINS feature 4 SCATTER symbols are guaranteed to hit on the triggering spin.

GAME RULES

VOLATILITY ⚡⚡⚡⚡⚡

High volatility games pay out less often on average but the chance to hit big wins in a short time span is higher.

Symbols pay anywhere.

All wins are multiplied by base bet.

All values are expressed as actual wins in coins.

When winning with multiple symbols, all wins are added to the total win.

Free spins win is awarded to the player after the round completes.

Free spins total win in the history contains the whole win of the cycle.

SPACE and ENTER buttons on the keyboard can be used to start and stop the spin.

The theoretical RTP of this game is 96.50%

The RTP of the game when using the "ANTE BET" is 96.50%

The RTP of the game when using "BUY FREE SPINS" is 96.49%

MINIMUM BET: \$0.20

MAXIMUM BET: \$125.00

Malfunction voids all pays and plays.
